Two numbers to plan around.

TALKS & SHOWCASE PAPERS

15+5

MINUTES · TALK + Q&A

The moderator keeps time and will signal when to wrap up, so every speaker gets their full slot.

POSTERS

AO

841 × 1189 MM · PORTRAIT

Upload it by 28 September and we will print it, or bring your own printed copy. The boards at the venue are set up for this size.

Welcome to the third edition.

The Organizing Committee welcomes you to the third edition of the **Innovations in Compiler Technology** workshop, on 2nd and 3rd October at IISc Bangalore. IICT brings together researchers, practitioners and enthusiasts in the field of compiler technologies.

This year's theme focuses on cutting-edge advancements in the design, implementation and optimization of compiler techniques, and their applications in emerging software and hardware platforms.

We congratulate and thank you for being a speaker, where the talks were carefully reviewed and graded by our esteemed Program Committee. The workshop consists of accepted talks, showcase papers, invited talks from academia and industry, poster presentations and hackathon presentations.

It is a novel opportunity to learn from experts and enthusiasts on both sides. We hope you make the best of your time here.

What to send us, and when.

POSTERS · ONLY IF WE PRINT

Want us to print your poster? Upload it by **28 September**. Otherwise bring your own printed copy, no form needed.

[Open the poster form ↗](#)

SLIDES · BY 30 SEPTEMBER

Upload your slides and tell us your laptop preference.

[Open the slides form ↗](#)

- 01 All presentation slides are downloaded onto our laptops on 30 September. **Please submit by the deadline.**
- 02 Slides for accepted talks are presented from the common laptop available with the organizing committee.
- 03 We have laptops supporting both macOS and Windows.
- 04 Arrive at least **30 minutes** before your slot to check in at the speaker registration desk.

What to bring.

SLIDE DECK

PDF, PPT, Keynote or Google Slides (download it, then upload the file). **All presentations run from the organizing committee laptop.** Keep slides high-resolution and readable from the back of the hall.

CODE DEMOS

If you plan to demonstrate live code or tools, please embed them in the presentation rather than relying on a live setup.

POSTER

A0, portrait. Either upload it by 28 September for us to print, or bring your own printed copy. Boards are provided at the venue.

After your presentation.

FOLLOW-UP Q&A

Keep the conversation going with attendees during the breaks, or on social platforms using the event hashtag **#IICT2026**.

MATERIALS

If you wish to share anything else, drop the Gdrive link into the same google form.

FEEDBACK

We will send a short survey after the event. Your insights help us improve future workshops.

Conduct and check-in.

Speakers are required to register. Collect your speaker badge at the registration desk on day 1.

CONDUCT

All speakers uphold the Event Code of Conduct: a respectful, inclusive and harassment-free environment.

INCLUSIVITY

Avoid offensive language, discriminatory remarks or inappropriate content. Please be mindful of the diverse backgrounds of attendees.
